

KNITTING

with Gayle Johnson

Attention knitters (and wanna-be knitters)! If you would like to learn the art of knitting or advance your skills then this is the class for you! We offer instruction for every level from beginner to advanced. We'll work with you to determine what you would like to learn and accomplish during our sessions. Don't be afraid to bring current projects or start anew!

Beginners will learn the basics of knitting such as casting on, the knit and purl stitches, and making a gauge. After you learn these techniques, you will make a pair of mittens. Making mittens allows you to practice those new skills while making a garment that will be worn for years to come. You'll never forget your first foray into knitting!

For intermediate and advanced knitters, instruction will be provided based on each student's individual need. If you bring a work in progress please be sure to also bring any needles, yarn and other supplies you may need for your project.
